Having for the past seven years made the vegetable kingdom his principal study, and the medical Botany, Dr. B. has at last succeeded in discovering the true principle of the vegetable kingdom, which is the basis of all the various medicines in existence. It is a knowledge of the vegetable kingdom that has been wanting in the medical faculty, to enable them to cure all diseases without the use of mercury, or any other mineral, and at the same time not sacrificing the constitution, as is the case with the use of mercury, and many other poisonous drugs, which are now practiced by many of the faculty. Diseases of the Heart and Kidneys, Dropsy, Rheumatism, Asthma, Dropsy, Nervous Affections, Dropsy, Fever and Ague, Dropsy, Consumption, Dropsy, Scrofula, Dropsy, Female Complaints, Dropsy, and consumption originating from Dropsy, all successfully treated by the use of vegetable medicines. Dr. B. has also discovered a remedy that will cure the worst case of Cancer in a few weeks. Also, Tetter, Salt Rheum, Ringworm, Scald Head, and all diseases of the skin, in a few days. Also, Piles, Fistula, Ulcers, Sore Eyes, and all diseases of the Eye, Ear and Throat, and consumption originating from Scrofula, in a few weeks. Also, Fits, Epilepsy, Spasms, Nervousness, Sleeplessness, Hysterics, Nervous Headache, Neuralgia, Nervous Debility, and all diseases of the Nervous System, in a few days. Also, Diseases of Females, Leucorrhœa, Irregularities, Suppression, Prolapsus Uteri, Falling of the Womb, Barrenness, Sterility, Abortions, Pain in the Back, Side and Limbs, Female Weakness, Nervousness, Hysterics, Fits, Epilepsy, Spasms, Sleeplessness

DAILY TRIBUNE,
No. 53 CLARK STREET.
CITY OF CHICAGO.
Thursday Morning ..... Jan. 29, 1857.

Growth and Amount of MANUFACTURES IN CHICAGO.

We this morning compress into a brief space, a detail of accounts of the different branches of Manufactures followed in Chicago, the largest Commercial City in the great North-West. The facts given in the few following columns, together with those heretofore published in the TRIBUNE in relation to the Building, Trade and Commerce of this city for 1856, lead us to anticipate a brilliant future for Chicago. We have taken a good deal of pains to give a full account of the Manufactures, but it has been found impossible to make the statement complete, the requisite information not having been furnished by many who are directly interested in this matter. The interior and more important branches, however, are described. It has been found quite impossible to make up aggregates in many of the branches, as had been desired, showing at one glance the total amount of capital invested, and of manufactures produced per annum. Enough, however, is set forth below to show that Chicago may fairly lay claim to the character of a manufacturing as well as a commercial city. This manufacturing, however, is even yet but in its infancy, and, as will be seen by the dates at which different branches were established, only a few years have elapsed since the commencement of the most of them. The geographical position of Chicago with reference to a large portion of the North-West; the many facilities for approach which it possesses in a great degree over all others; the proximity of inexhaustible supplies of coal and of various kinds of minerals—all point to it as the ultimate seat of a very extensive manufacturing business. The Chicago mechanic is not surpassed in great, and as Emerson says of the Englishman he is almost a man of steam, for he forges, saws, pounds, fans, pumps, grinds and digs by steam. He makes and makes well, almost everything that is made elsewhere, and successfully competes by the excellence of the market, wi h larger, wealthier and longer established factories in the East. The growth of Chicago's manufactures, as shown below, is a significant index of its prosperity, in addition to its increase in population and commerce. By reference to the TRIBUNE's review of Chicago manufactures for 1851, six years ago, we see that only a dozen branches of manufacture were thought worthy of mention. The increase in even these branches now, shows great prosperity. In 1851, for instance, but fifteen million brick were manufactured; in 1856, nearly one hundred millions. Then but $15,500 was invested in stone and marble; $60,000 in Planing Mills; and in the most flourishing business, carriage making $50,000. In Foundries and Machine shops of all kinds, but $180,500 was then invested. "We think no such rapid increase in any branch of manufactures as shown in this statement; much less in any place in the Western States," adopting the language of a cotemporary in another city. Many branches have grown up entirely since then, and many also within the past year. But we proceed to give in detail, a brief account of each.

AGRICULTURAL IMPLEMENTS.

C. H. McCORMICK, manufacturer of Reaping and Mowing Machines; established in 1847.—The main building is 54 by 80 feet, and 4 stories high, besides a foundry, blacksmith shop, and other buildings. A 50 horse power steam engine is employed, supplying power to work 4 planing machines, 5 circular saws, one upright saw, 19 lathes, 17 drills, 3 screw cutting machines, 4 mortising machines, 4 boring machines, 4 grindstones and 4 fans, in addition to 3 small power lathes. There are 220 hands employed, the yearly wages paid to whom amount to $120,000. Capital invested, $367,000. During 1856 4,000 reapers and mowers were manufactured, valued at $320,000.

JOHN S. WRIGHT & CO., manufacturers of Atkins' Self-raking Reaper and Mower, corner of Peyton and Michigan streets, North Division; established in 1854. Capital invested at $175,000, and have manufactured during the year 1856 1,200 reapers and mowers. They employ 200 men employed, and pay out in wages $75,000 per annum. The raw material which they have used during the last year cost them $125,000, and the value of the articles made is estimated at $250,000.

H. A. PRESS & CO., manufacturers of Threshing Machines and Horse Powers, corner of Jefferson and Randolph streets, West Division.—This firm has only been in operation for the last eight months, their factory having been burned down in September, 1856, and rebuilt. They have now one of the most commodious establishments in the United States, and the sawing of the same height 30 by 76 feet, besides a blacksmith shop 30 by 80 feet. The capital invested is $70,000, the amount of wages paid to hands for the 8 months, $10,720, and the value of the articles made $75,000.

Total number of hands employed in the manufactures of agricultural implements, 310. Capital invested, $387,000. Value of manufactures, $1,054,500.

H. D. EMERY & CO., of the "Chicago Agricultural Works," established here in October, 1856, though doing their main business during the Autumn of 1856, in the manufacture and sale of labor-saving machinery will make it necessary for them to secure better facilities for supply of stock, and they will probably commence the manufacture of their own reapers, threshers, and other farm implements, on a small scale this winter, to meet the demand upon them. Their trade now would fairly rank them in the second class of the 10 Emery lines of agricultural works of Albany, nearly 1,000 horse-powers, threshers, &c., are annually made, 70 to 100 hands employed, one-fourth of which are for the cold barns, they having sold $75,000 worth the past year in this city.

From the nature of the agricultural country tributary to Chicago, dealers in agricultural implements will be extended to five times its present importance, although already on very large

BAGS AND BAGGING

Otis W. ADKINS, at 139 Dearborn street, established the Chicago Bag Manufactory, occupying a 2 story brick building. He has 3 sewing machines and employs 24 persons, male and female, at an annual salary of some $4,000. He appears to be doing a thriving business, having sold more than any manufactory east of Boston. Bags and sacks of all sizes are here made, and branded with suitable devices.

BARRELS AND COOPERAGE GENERALLY.

ADAMS & CO.'S COOPERAGE, corner of Franklin and Ohio streets, commenced in July, 1856, with a capital including real estate of $20,000. He is connected with Adams & Co.'s Seeding mills, and principally manufacturing flour barrels. It turned out 15,000 barrels the past year, (with 10 hands,) worth $15,000. Wages paid hands, in the aggregate, $1,400.

GARDNER'S, on North Water street, east of Rush, Gardner's Basque Factory, is carried on by machinery. Capital invested, $10,000, the building costing $4,000, and 10 hands are employed at an average of $400 wages. The machinery is driven by a 30 horse power engine. Value of manufactures last year only $20,000.

CLOVER & CO. have the largest cooperage and manufactory of pails in the North-West last year, worth $40,000, with 60 men at $18,000 aggregate wages, and $12,000 capital invested. It is connected with Crosby's distillery and the barrels are for his whisky, and for packing pork. It is located on the corner of Kinzie and Curtiss streets, far out on the West Side.

There are innumerable other cooper-ages—hogsheads, large and small, in various parts of the city, from which we have received no returns. Owing to the large profession of pails, beer, whisky, &c., the cooperage business is made a specialty here and employment is given to many people. They create, of course, a great demand for staves and hoops, which are easily supplied by railroad from Indiana and Michigan and the South. There is also an immense demand for barrels brought here by lake, for the Pork and other distilleries and flour mills.

BLANK BOOKS, BINDING, ETC.

The heaviest engaged in the business are those of Messrs. Munson & Bradley, 91 Lake street; A. H. Burley, 120 Lake street; Culver, Page & Hayne, 123 Lake street; and Evans, Judd & Sexton, 55 Lake street. The capital employed by these houses is probably not less than $250,000, the number of persons employed 80, and the value of the articles annually manufactured during 1856, $175,000. We have had occasion some time ago to speak of the excellent quality of the blank book work of Messrs. Burley and Munson & Bradley. It is seriously not surpassed by any blank work in America. Both houses have been established for a number of years, institutions in the country, and Munson & Bradley recently bore away the prize even from New York and Boston competitors.

Returns have been received but from one firm.

CULVER, PAGE & HAYNE, Blank Book Manufacturers, Book Binders and Stationers, in what Mr. Burley's Book-Store was located in 1841 by Mr. Reed, commenced as a Binding in 1845, by Wm. Gurry in 1852, Culver & Page in June, 1855, who admitted Mr. Hayne together in May last. The additions to establishment of the kind in Chi. Wor. They employ rooms, 45 by 140 feet, in Dutcher's Block, corner of Lake and Clark st., employ 50 hands, at $9,000 by year, and turned out last year nearly $80,000 worth.

BELLOWS MAKERS.

We have only been able to obtain the existence of one bellows maker in the city, to-wit: Michael Dailidy, 191 Michigan street, in the North Division. This manufactory has been in operation about four years, and has four hands constantly employed. The wages amount to $60 per week. Over 1200 pairs of bellows are made every year, of the aggregate value of $12,000.

BOOTS AND SHOES.

PRESTON & DANA, 189 Lake street.—Capital invested, $25,000; 65,000 boots and shoes made in 1856, valued at $71,825; 30 men employed; annual amount of wages paid, $8,000; value of raw material consumed, $9,000. Total amount of sales in 1856, $100,000.

There are a large number of other establishments in the city where the manufacture of boots and shoes is carried on extensively, among which we may name S. G. Wells at Metropolitan Hall, and Reed & Dowd, corner of Lake and La Salle sts. (for the large proportion of these goods are purchased by our wholesale houses from the East. The number of men employed in the manufacturing of boots and shoes is probably 1,200; capital invested, $300,000. Value of boots and shoes made here in 1856 $600,000.

BRASS FOUNDERS, COPPER AND TIN-WARE.

CROSSMANS Mess. 22 State street, opposite South Market, employs 20 men, whose wages amount to $200 per week. Their business was established in 1856, 1854.

THOMAS GEORGE & CO., Brass Founders and Copper-smiths, 201 Lake street and 158 Franklin street.—70 hands employed; wages paid in 1856, $20,000; value of manufactures in 1856, $50,000.

GREENLEAF & CODY, Plumbers and Tinners, 322 Randolph street, employ 26 hands, to whom $10,000 in wages were paid in 1856. Capital invested, $5,000. Value of work done, $30,000.

MARSH WIRE, Tin-ware, 220 Randolph street, employs 20 hands. Value of manufactures in 1856, $30,000.

E. T. CRANDALL, Brass Founder, 102 West Lake st.—employs 30 men. Capital invested, $10,000. Value of manufactures, $50,000.

D. L. LEONARD, Brass Founder, corner of Jefferson and Wayne sts., North Division, employs 4 men. Capital invested, $1,000. Value of manufactures, $10,000.

PUTNAM & SMITH, Tin and Copper-smiths, corner of Randolph and Stephenson sts.—Capital invested, $2,000. Value of manufactures, $10,000.

FRANCIS & HOWE, Tin-ware, 60 North Clark st., corner of Michigan, employ 10 hands. Capital invested, $2,000. Value of articles made, $10,000.

BURNS & BOAT, Tin-ware, 139 South Clark st., employ 5 hands. Capital invested, $1,000. Value of articles made, $5,000.

J. K. BONFIELD, 99 Lake st., has 10 men employed. Capital invested, $5,000. Value of articles made in 1856, $60,000

Notice.

THE PAST EIGHTEEN MONTHS HAVE witnessed the introduction into this country of a preparation for the hair called the Mexican Hair Renewer, which has been so extensively used, and which has given such perfect satisfaction, that the demand for it has increased beyond the most sanguine expectations of the proprietors. To meet this demand, and to supply the increasing trade, they have established a depot in this city, at which they intend to keep constantly on hand a full supply of the genuine article, and have appointed Messrs. HOYT, SHERMAN & DE GARMO, No. 109 Lake street, their agents for the sale of the same. Chicago, Dec. 29, 1856.

Special Notice.

Winter Extension.

In compliance with many urgent solicitations, DR. C. M. FITCH, late of New York, author of the "Health Guide and Consumption's Manual," has consented to remain in the city of CHICAGO during the present Winter, for the convenience of his Western patrons, to whom his services, especially those laboring under incurable diseases, may now avail themselves. Dr. Fitch's system of treatment without the slightest danger of doing evil is sure to cure.

Dr. Fitch desires that the public may not confound Dr. C. M. FITCH with Dr. S. S. FITCH, as we have had to do for many months in the past, to our great annoyance and loss, and the publication of the fact that Dr. S. S. FITCH is not and never has been connected with Dr. C. M. FITCH, and is not responsible for his acts.

Dr. Fitch will receive patients from 10 to 4, excepting on the Sabbath and the afternoon of Saturday, and from one of November to the first of next week. During which none but the most urgent cases will be received.

CHITTENDEN'S HAIR DYE.—This great chemical discovery has taken precedence over every other preparation for changing the color of the hair. Its public favor is the most perfect and natural black or brown, it does not injure the texture and elasticity of the hair, nor cause the scalp to become sore, as is the case with all other dyes. It contains no lime, sulphur or nitrate of silver, but is composed entirely of vegetable matter, and is perfectly harmless. It produces a color that will not wash or rub off on the linen of the head, dries up the moisture circulating through the fibres, nor emits any unpleasant odor. The application is simple, and the result is certain. The subtle principle which it imparts to the hair is absorbed by the roots, and the rich natural hue imparted to the hair is the head, the whiskers and mustaches in uniform, in a shade in every element. Hence its popularity, being critically weighed, by which it has superseded all others throughout the United States.

CATARRH!—WHAT IS IT?—Has it ever been defined?—No physicians understand it!—If it has been clearly and philosophically defined—if the Faculty understand it, they have not given the world the benefit of their knowledge. Hence no remedy can be devised for its removal. But the writer of this, in unhappily the fate! It has never received a successful remedy—and has never been declared in the treatment of the pathology.

The Medical Literati then, have failed to cure it. Have quack nostrums, in the shape of "snuffs," been more successful? The figures of such imposition has been answer—they never were.

Can it be cured? Yes.

Combining the remedy in liquid form, and simply to be inhaled into the nostrils, with positively, and radically cure Catarrh in its worst forms. Pamphlets containing full particulars of this treatment, beyond question doubt or concealment, may be had gratis.

Circuit Court of Cook County, March Term, A.D. 1857.

Thomas J. Cummins, Charles P. Collins, George S. C. Benning and Herman Stark, plaintiffs, vs. David G. Van Valkenburgh, Jr., Edward Van Valkenburgh, Jr., and Edward Wade and Robert H. Ives, defendants.

WHEREAS, a WRIT OF ERROR was ... Court and our seal thereof, in the above entitled cause, and a writ of error before the said Court, returnable on the first Monday in June, 1857, and to be returned, and on which said writ of error it is ordered by the said Court that the said James Rees, S. Hoffman Arnold and William Arnold, plaintiffs in error aforesaid, are not required to enter into the usual bond and security for prosecuting their said writ of error, and that the said writ of error do operate as a supersedeas, and that the record of the proceedings in this cause in the said Circuit Court of Cook County be forthwith transmitted to the clerk of said Supreme Court, according to the rule of said Supreme Court in such cases made and provided.

Therefore, you the said defendants in error, whose counsel in this appeal we have hereby notified, that you be and appear before the justices of said Supreme Court, at the session of said Court, to be holden at the city of Ottawa, in said county of LaSalle, on the second Monday in June next, to hear the record and proceedings aforesaid, and the errors assigned, if you shall see fit; and further do and receive what said Court shall consider in that behalf.

Witness, the Hon. Theophilus W. Smith, Chief Justice of said Court, at Ottawa, this 20th day of March, A.D. 1857.
